## A GREAT SORTIE Beds

MAY BE EFFECTED BEFORE PORT ARTHUR FALLS.

Kuroki Gains Great Advantage

Fighting around Ashang. Russian and Japanese Casualties. Russians Fight and Fall Back.

### MOVEMENTS OF THE BALTIC FLEET.

St. Petersburg, August 27.—The Baltic fleet, which left Cronstadt last night for a ten days' trial cruise, consists of the battleships, Souvaroff, (the flagship, Borodino, Alexander III, Oslavia and Orel; the cruisers Dmitri, Donskoi, Aurora, Semteching, Izumrud and Almaz, and the transports Okean and Kamohatku, with a number of torpedo boat destroyers. It is officially stated that the fleet is bound on a trial cruise, but it is believed that the warships will not return to Cronstadt, but will put into Libau, where they will be joined by the auxiliary cruisers and the torpedo boat destroyers built at Libau and Reval, and there await their ultimate start for the Far East.

### THE FIGHT NEAR LIAO YANG.

Kantsertun (Seven miles southeast of Liao Yang) August 27.—The Japanese are advancing along the whole line of the Russian eastern front. On August 24th there was a rifle skirmish, and the next day the Japanese army opened fire. On both days the firing ceased at dusk, and the energy displayed by the Japanese must have been taken to indicate that it was merely a demonstration or a reconnaissance in force. On the morning of the 26th, however, the rifle fire was renewed with an energy that left no doubt that a severe battle was intended. The Japanese pushed their ammunition wagons up to the Russian right flank and centre, concentrating their fire upon the first battery of the third brigade. Three officers and several men were wounded early in the day, but the battery held its position and replied to the Japanese fire with such marked effect that General Ivanoff, who commands the late General Count Keller's corps, sent a congratulatory message to its commander. The Japanese several times attempted to cross the Lankecho Lank river, but only a few succeeded, and these were forced to hide in the fields of Chinese corn. At two p.m. the artillery fire became as hot as it was at Vafango, but it fluctuated considerably and occasionally the Russian companies moved forward to the attack.

### RUSSIANS FIGHT STUBBORNLY AND FALL BACK.

Liao Yang, August 28.—Gen. Kuroki has joined forces with General Oku in an attempt to cut the Russian line between Anshanshan and Liandianshan. The battle of August 25th ranged along the eastern front. A strong Japanese force occupied the Russian positions at Miao pass, 11 miles east of Anshanshan. Nine batteries of six guns each bombarded the Russian outposts. At this point the combat repeatedly developed into hand to hand fighting. The Russians stubbornly held to the outposts the whole day, falling back on their main position at night.

The chief artillery engagement was in front of Liandianshan. The Japanese concentrated the fire of ten batteries and continuously advanced on Lorientpu, four miles west of Liandianshan, but they were arrested by the Cossacks, who were afterwards reinforced by infantry and artillery. The Japanese resumed the bombardment early August 26th, devoting most of their attention to Liandianshan. The Russian field guns were mostly mountain pieces. The casualties have not been ascertained.

### JAPS HAVE ADVANCED BUT LITTLE.

Berlin, August 28.—Dispatches from Liao Yang show that the Japs have not occupied Anshanshan, but on the contrary have advanced barely beyond Hai Cheng. One correspondent says that the Japanese hold a fortified line one mile north of Hai Cheng and that on August 27th 32 Japanese cannon were destroyed in a battle to the eastward.

**RUST IN MANITOBA**

James Murray, B.L.A., western superintendent of the Canadian Seed Growers' association, has made an extensive trip through southern and southwestern Manitoba. Mr. Murray was questioned regarding the condition of the crops and damage from rust. He said: "I think the statements of damage from rust are being grossly exaggerated, and a needless state of panic created. I have visited and examined the districts of Souris, Hartney, Deloraine, Cartwright, Thornhill, Napinka, Morris and Gretna. My object in going was to visit the members of the Seed Growers' association and to try and interest others in the operations of the association and at the same time to get thoroughly acquainted with the general conditions of the crop, particularly with reference to the reports of the prevalence of rust. In the majority of the fields around Souris and Hartney there is scarcely any evidence of rust at all, and the crop is well advanced. Around Napinka and Deloraine the crop is too far advanced to be seriously injured by anything. The only field I saw that would be at all badly affected was at Cartwright. My examinations were not from the train or by driving along the roads; I walked through miles of wheat and examined it carefully and thoroughly."

"Black rust is merely a further stage of the old time red rust, and is really a winter stage of the disease. There is nothing new about it except that this year it has reached an unusual stage of development and one that is rarely seen. A point that I think should be noted is that the farmers themselves rarely mention rust; in fact, in speaking of from two to three dozen farmers and inquiring especially as to their hope of a good crop, not one of them mentioned rust as a possible factor in lessening their yield. Of course, where there is rust, the wheat, of which there is a considerable percentage, will be damaged."

**CLOVER BAR CROPS**

C. Gavin and S. H. Smith took a trip through the Clover Bar district Friday afternoon. A stop was made at Wm. Wakeford's. Mr. Wakeford was busy cutting a splendid crop of wheat. This spring Mr. Wakeford sowed a couple of acres of a new ninety day variety of oats. These have already been cut, the crop having been very heavy and the quality a splendid one. All of Mr. Wakeford's crop is now ready for the binder.

The crops throughout the district are ripening quickly, are standing up well, and will produce a splendid sample. They use a little lighter than in recent years, but will be saved in much better shape. Much grain is ready for cutting in which the binders have not yet started to work.

Samples of red top eight feet long pea vine and wild radish over nine feet long were placed from Mr. Wakeford's farm and taken to town. The radishes can be seen in the Bulletin office window. The garden vegetables are splendid. Mr. Wakeford has cabbages that weigh twenty pounds with the outside leaves removed. Six splendid varieties of carrots are growing side by side.

**Wetaskiwin Crops**

Post:

Up to the time of writing, the crop in all parts of this district is showing every indication of being a first-class one. Reports from all parts of the country show there is a fine stand of grain, and even as early as this week a large share of grain and grasses are in stack and practically safe. A large acreage of wheat, oats, barley, rye and timothy has already been cut and the district is practically sure of a bumper crop for 1904. In spite of the forecasts of earlier in the season regarding thinness and the quality of seed, everything is coming out O.K., showing once more the immense vitality and grand capabilities of this section. Alberta. The local millers are looking with smiling faces for a really good sample of milling wheat this year and if nothing untoward happens during the next few days, they are going to get it too. Reports of the crops from down south show that whilst they have a good crop in sight, the entire comparison is in favor of Wetaskiwin, the straw here being longer and the grain heavier than at other points to the south. The harvest is much earlier than in previous years, in fact as early as Manitoba, where they have every prospect of a good crop too, but it is evident there is a nigger on the fence down there in the shape of rusted grain, in spite of the strong effort which the Manitoba newspapers are using to minimize the trouble.

No rust in the Wetaskiwin district and no damage from frost so far. Another week or so of this weather will tell the tale for everyone for 1904. The tale, let us hope, of prosperity for our district. Already cutting is general and without going into dry details, general reports are, good grain and plenty of it. The haying season has also been exceptional this year, the mower having been seen in many meadows not cut for years. Everyone who wanted good hay, could have it this year, and there is any quantity of feed in the country.

**Induction of Rev. W. R. George**

Plaineader:

On Sunday morning last His Lordship Bishop Pinkham inducted the Rev. W. R. George into the rectorship of Holy Trinity church, Strathcona. In the evening Rev. Mr. George preached to his congregation here for the first time.

On Tuesday evening an informal reception was tendered Rev. Mr. George by Holy Trinity congregation in Ross hall. Rev. H. A. Gray, rector of All Saints' church, Edmonton, directed the proceedings of the evening. There were brief addresses of welcome from Mr. Gray and also from the local pastors of other denominations, Revs. Fleming, Corey and Johnston. Mr. George replied suitably expressing his pleasure in undertaking the rectorship here. Light refreshments were served by the ladies and a pleasant hour spent in social converse.

Services will be held at the regular hours each Sunday in the future in Holy Trinity church.

## Just a Few Words About Stoves and Ranges

ROSS BROS., Limited would like to call the attention of the public in general to their stock of Steel and Cast Ranges. These Ranges are selected from among the best Makers on the Continent and every stove they sell is fully

## Guaranteed

Further than this, there is no Stove or Range made that will not in time require to have some parts renewed no matter what dealers may say to the contrary and when such parts are to be renewed you would like to get them without any unnecessary delay or trouble. If you buy from your local dealers you will have their best attention not only in respect to any guarantee they may give but also in any parts you may want in the future.

New Ross Bros., Limited are close in touch [with what is wanted in this country and their stock of stoves and ranges are not only up-to-date but are selected with a special view to what is most needed here. Their prices are much below that of some prices being asked for other Steel Ranges and you will know where to find them when you want special parts when your stove has in time become an old one.

## THE POSITION

"Are they wid' us or agin' us?" on the railway is what every Western elector wants to know regarding the party of the opposition and its candidates. There are other questions of great national importance to be considered, but for the West the Grand Trunk Pacific overshadows all others. We want it, and want it now—or as soon as human ability can give it. That is the arrangement the present government has made with the Grand Trunk railway company, and it is interesting to know what the intentions of the party of the opposition have to say regarding it.

The Calgary Herald of recent date gives an account of a meeting held recently in McLean's hall in that city to greet Conservative candidates Pope, Bush and McCarthy. Mr. Pope is sitting member and opposition candidate for Compton, Quebec; Mr. Bush is candidate for Strathcona; and Mr. McCarthy is candidate for Calgary. Mr. Pope made the speech of the evening, and this is what the Herald reports him as having said:

"It was the Conservative party that built the C.P.R., and the Conservative party that always stands for the west. That was the party that had confidence in the possibilities of the west, when the Liberals opposed every proposition looking to the improvement of the country west of the lakes.

The claim of the government that the proposed G.T.P. would reduce freight and passenger tariffs was ridiculous. He challenged any man to cite an instance where the construction of parallel lines had reduced the cost of travel or of freight. It would increase the facilities but not decrease the tariff. Eastern Canada was well covered with railroads, but the parallel lines did not bring the freight rates down. This could be accomplished only by a government owned line. He stood for a government owned line from ocean to ocean and it would have to be built by the Conservative government, as that was the party of progress, and the only party that had ever given Canada anything substantial."

Nothing could be more evident than Mr. Pope's proposal—maintain C.P.R. monopoly until Canada shall declare for a government owned railway to the Pacific. While Mr. Pope stated that he personally was in favor of such a railway, he was careful not to say that that was the policy of the party which he was asking the electors to support. The policy which Mr. Pope stands for is: Defeat the present proposal to give the West railway competition by any argument or any means, and so leave the C.P.R. in possession of the field. This result can, and can only be achieved by the return of the Conservative party to power. How long the C.P.R. would remain in possession would depend on how long the Conservative party remained in power, if that party is to be judged by its previous record.

Western people would do well to remember that the project of a government owned transcontinental railway was well under way in the hands of a Liberal government in 1878. The defeat of that government and the re-election of the Conservatives to power resulted in the project of government ownership being abandoned and the handing over of the whole project including nearly 600 miles of already completed line, to the present C.P.R.

company. The C.P.R. was completed to Calgary in 1883, and in 1896, after thirteen more years of Conservative rule, although a number of independent railway projects had been started, there was not a foot of railway in the North West that was not practically or actually controlled by the C.P.R., except the short narrow gauge line from Lethbridge to the boundary. From 1896 forward there was not a breath or whisper of government ownership of railways in the North West from the Conservative party until all other arguments against the Grand Trunk Pacific and effective competition throughout the west had utterly failed. Then it was taken up, not as a matter of party policy, but as a matter for discussion, so that it might be used to confuse the public mind on the questions at issue. The idea is to talk government ownership as a means of perpetuating C.P.R. monopoly.

## C. N. R. DOINGS

J. D. McArthur, contractor in the Canadian Northern railway and a Caidler, of Winnipeg, spent Thursday in Edmonton, and left on Friday for Winnipeg. In getting to Edmonton, overland from Battleford, Mr. McArthur passed through Fort Saskatchewan.

In the Fort Mr. McArthur was interviewed by a Reporter representative, to which he stated the following:

Regarding the C.N.R. line tapping the Fort, Mr. McArthur said that the citizens of the town need have no fear of being side-tracked, as he could assure them that the line would undoubtedly cross the river here or at Point de Pe.

The work is even now being pushed forward as rapidly as possible. There are nine hundred teams this side of Battleford, and six miles of grading is being built daily. Before winter sets in Mr. McArthur expects to have the road-bed finished about forty miles this side of the Barr Colony.

The head foreman of the construction department will be here in about two weeks to secure men for the work, as a gang for clearing the right of way will be put to work every ten miles or so.

Mr. McArthur and Mr. Caidler, are gentlemen of wide experience in railway prospecting and traveling, and say that the trip that they have just finished was through the most fertile country that they had yet seen, and the only thing that the immense tract of land needs is railway facilities to develop its vast resources.

## Regina District Crops

Regarding the crop situation in the Regina district the Leader says:—

From information obtainable from farmers and others who have driven through portions of the Regina district within the past week, it is learned that from present indications this year's wheat crop will be one of the most valuable harvested for some years. Prospects at this date could hardly be brighter and the yield is expected to average high. Twenty-five and thirty bushels an acre will not be uncommon and in some sections will be almost the rule. The straw is lighter than for some years past, but the grain has headed out well. The expense of handling the crop will be less than in years of heavy straw and with the high prices prevailing and in prospect the farmers look for very gratifying results from their year's labor. Barley cutting commenced on points on the Soo line last week and was begun yesterday on Mayor Laird's farm, two miles from the city.

Wheat cutting will begin this week on a score of farms in this district and will be general next week if the present very favorable weather conditions continue to prevail. All grain has made wonderful progress towards maturity during the past ten days and the present outlook is extremely favorable and gratifying.

## DEDICATION SERVICE

### THE METHODIST CHURCH

On Kinistino Avenue set apart for Religious Services yesterday

The new Methodist mission church on Kinistino Avenue in the north-east corner of the city, was yesterday morning dedicated and set aside for religious service. The Rev. C. H. Huestis, Pastor of McDougall Methodist church, preached the sermon and conducted the dedication services. The church was crowded to the doors, and a number of people were standing throughout the service. The pulpit was prettily decorated with flowers.

The regular order of religious service was followed. The pastor spoke from the text—"Lord, to whom shall we go? Thou hast the words of eternal life." This was a timely and timely reason for this being a Christian. Several questions were taken and discussed on what it is to be a Christian. First, not simply to go to church, for all church-goers are not Christians, and all Christians are not church-goers. However, it is the duty of every Christian to go to church, and he is sinning unless he has a good reason for his absenting himself. Secondly, a Christian is not simply one who has been converted. A person may once have given himself to God, but later have fallen away. Thirdly, a man who accepts the doctrines of Christianity is not necessarily a Christian. He may truly believe all Christian doctrines, but unless in believing them his heart and life is consecrated to God he will not be saved. Fourthly, a Christian is not one who is free from religious doubt, as all Christians have their periods of darkness and doubt. Fifthly, to be a good man does not necessarily mean to be a Christian. Morality is a part of, but does not constitute Christianity. Two positive, one scientific and the other moral definitions of Christianity were given. A Christian is one who has perfect trust in and loves with Christ in the uplifting of the world.

A man could not endeavour to be a Christian merely to get rid of sin, or to get to heaven. Paradise would be hell to a man who had been with Christ. The deepest impulse of the human soul is goodness, although evil has a great power over man. There is an inherent impulse in every man to attain to something nobler, higher and better than he now is. This is the sum of the vegetable and animal world, and it is with man. Our manner of life is to be such as to order that we may attain spiritual advancement. Christ came into the world to show us how to attain to the greatest possibilities of our mortal life. One cannot be a full man without being a Christian, as no man can do anything by himself. We have to go outside of ourselves to seek for ideas, and Christ inspires us with these ideas.

The central truths of the sermon were then particularly applied to the new church, which brought this part of the service to an end.

The choir, under the direction of Mr. Howard Staehly, then rendered a very appropriate anthem.

After responsive reading by the pastor and the congregation, the trustees of the church, Dr. Smith, A. T. Cushing, B. T. Blazney and E. Grierson, approached the pulpit, and Dr. Smith, on behalf of the trustees, presented the building to be dedicated as a church. The declaration of dedication by the pastor was followed by prayer.

Before closing the service Rev. Huestis addressed a few words to the congregation, stating the pleasure that it gave him to officiate at the dedication of this the second Methodist church in Edmonton.

A platform service was held in the afternoon at which addresses were delivered by Rev. T. A. Rodger, Rev. A. Hager, Rev. A. M. McDonald, Rev. C. V. Hall, and Rev. C. H. Huestis. There was a large attendance.

### AT THE CHURCHES

The Kinistino avenue Methodist church was dedicated for religious services yesterday, Rev. C. H. Huestis conducting the dedication service. In the afternoon a platform service was held in the church addressed by several of the resident ministers. In the evening the Rev. C. V. Hall, the pastor of the church, conducted the service.

In the McDougall Methodist church the morning service was taken by Rev. C. V. Hall and the evening service by Rev. C. H. Huestis. In the evening, besides the regular anthem by the choir, Mrs. Green sang a very pleasing solo.

Rev. T. A. Rodger conducted the regular services in the Presbyterian

church. In the morning he took for his text, "And ye shall receive power after that the Holy Ghost is come upon you and ye shall be witnesses for me in Jerusalem and in Judea and in Samaria, and in the uttermost parts of the earth." A strong plea was made for foreign mission work. At the evening service Mr. Rodger referred feelingly to the death of the late Dr. McLean and made a special plea to young men. Rev. Mr. Rodger leaves this week to resume his evangelistic work in British Columbia.

The Christian Endeavor society of the Presbyterian church will resume their meetings this evening. A large attendance of the members and adherents of the congregation is urgently requested. Strangers are cordially welcome.

In the Baptist church yesterday evening Pastor McDonald spoke from the subject, "The Pious son of a wicked father."

Rev. H. A. Gray, pastor of All Saints' church, Edmonton, took the regular services.

A special collection will be taken in the Presbyterian church next Sunday morning, which will go to defray expenses in connection with the printing of assembly reports.

Rev. Forbes, of Fort Saskatchewan, will occupy the pulpit of the Edmonton Presbyterian church next Sabbath, morning and evening.

### PERSONAL

W. W. Shaw, of Lloydminster, was in the city Saturday.

G. H. Scott of Lloydminster, arrived in the city Saturday.

D. Gillies arrived in Edmonton Saturday from Leduc.

Old Glangarty county friends, and have a look at the country.

Harry Goodridge took a business trip down the line this morning.

E. English formerly station agent at Strathcona, left this morning for Calgary with his wife and family.

Rev. T. A. Rodger leaves this week to carry on evangelistic work in British Columbia similar to what he has been engaged in in Alberta.

Herald: Dinean Sinclair, of St. Elmo, Ont. was among the visitors to the Poncha district this week. Mr. Sinclair, though 67 years of age, is yet hale and hearty, and appears to enjoy good health. He went from here to Edmonton to visit Mr. and Mrs. Engel have returned to the city from holidaying at Asinipoville.

John Armstrong, Grand-Trunk Pacific engineer, is in the city at present.

## DUTY ON STEEL RAILS

SEVEN DOLLARS PER TON

Will be Imposed on Steel Rails entering Canada. Soo rail will activate.

Bulletin Special Dispatch. Ottawa, August 29th.—Hon. C. A. Young, of Winnipeg, has arrived to attend the meeting of the Transcontinental Railway Commission tomorrow.

A proclamation was issued Saturday bringing into force the act of 1903, imposing a duty of \$7 per ton on steel rails. This duty was to take effect when satisfactory evidence was furnished the Government that rails of the best quality were being made in Canada, and in a sufficient quantity to supply ordinary demands. A rail mill is in successful operation at Sault Ste. Marie, and this part of the Tariff Act is now in operation. The duty is subject to a reduction of 33 1/2 per cent under the British preferential tariff. The duty will not apply to any rails that may be imported into Canada not later than the 30th of November, 1904, and must be laid on the track not later than the 28th of February, 1905.

## TO AID IN THE HARVEST

THOUSANDS OF MEN

Arriving in Winnipeg and being distributed over Manitoba and the Territories.

Bulletin Special Dispatch. Winnipeg, August 29.—So far 7,000 harvest excursionists have come on the special trains over the C.P.R. and about 5,000 have been distributed in the country points and are now at work in the fields.

Saturday afternoon three specials arrived, carrying on an average 1,000 excursionists each. Yesterday a special train was sent out for points on the main line and 1500 went west on that occasion. All of the Ontario passengers will be covered and the remainder is to come from Quebec and the Maritime provinces. This will finish the excursions from the east.

This morning at six o'clock a special was sent out for the west.

## HON. EDWARD BLAKE

IN CANADA

Will spend some weeks at Murray Bay and then go to Toronto

Bulletin Special Dispatch. Quebec, Aug. 29.—Hon. Edward Blake arrived in Quebec yesterday. He will join Mrs. Blake in Murray Bay, where they will remain a few weeks, afterwards going to Toronto.

## LAND SPECULATORS

DOING BUSINESS

On a large scale. Will watch to see which place is chosen Terminus

Bulletin Special Dispatch. Victoria, August 29.—The tug Fern is being refitted here under rush orders. Great secrecy is maintained in this connection but it has been learned that a land company looking forward to speculation in connection with the terminus of the Grand Trunk Pacific, is interested. The Fern will carry ample provisions and a strong searchlight. It is generally supposed on account of the urgency in completing outfitting that the party intends going north about the same time as the officials of the Grand Trunk Pacific leave to look into the matter of a terminus. They will watch carefully the movements of the officials.

## NEWS OF THE WORLD

IN BRIEF PARAGRAPHS

Condensed Dispatches Dealing With the Day's Most Important Happenings.

Winnipeg, Aug. 29. A duty of \$7 a ton on rails is now in force. More than eight thousand harvesters have arrived in the west. Hon. Jas. Sutherland's health has much improved.

Two spectators of an auto race at St. Louis were killed.

An Oak Lake boy had his leg amputated by a freight train.

J. Perkins, an Italian coal handler, was killed at Fort William.

The four year old daughter of Thos. Gunn, of Melville, was drowned in a well.

Tom Price, foreman of the Port Arthur waterworks, was stabbed by an Italian.

A joint expedition is to set in St. Petersburg to settle the long-voiced contraband question.

President Hayes announced on Saturday that the Grand Trunk Pacific purpose building a branch line to Calgary.

Two men were killed and two fatally injured by an elevator dropping with a cargo of muratic acid.

The Winnipeg lacrosse team beat the Shamrocks two to one after one of the finest games ever seen in the city.

Two contestants started in the baloon race from St. Louis to Washington. When last seen they were both rapidly heading for the Pacific.

The Japanese northern armies have inflicted another defeat on Sakharoff's troops. The Russians lost 2,100 men and six guns. The fall of Port Arthur is imminent.

The copy of the Sultan of Tangier to Great Britain to the latter's protest at the confiscation of the goods of a British subject is believed to be unsatisfactory.

## FIRE IN BERLIN

FURNITURE FACTORY

Burned to the Ground with a Loss of One Hundred Thousand Dollars

Bulletin Special Dispatch. Berlin, August 27th.—Berlin was visited by a bad fire to-day. The factory of the Canada Furniture Company was burned to the ground with a loss of \$100,000; the insurance being \$70,000.

## CONVIVIAL GATHERING

ENDS IN A QUARREL

Knife is drawn and one of the revellers stabbed. Assailant at large

Bulletin Special Dispatch. Fort Arthur, August 29.—While enjoying a keg of beer with a party of friends on the outskirts of town this afternoon, Thomas Price became engaged in a dispute with one of the revellers and was stabbed so badly that he may die. The assailant is still at large.

## FIERCE FOREST FIRES

RAGING NEAR VANCOUVER

Huge Timber Areas Being Burnt up Causing Great Losses. Province Wants Rain

Bulletin Special Dispatch. Vancouver, August 29th.—Fierce forest fires seven miles long at Point Grey, close to Vancouver, are raging. There are fires all over the Province. The total loss to the Province, at fifty cents per 1000 feet, timber royalties, is half a million dollars. The loss is timber is over a million feet, to the value of \$5,000,000. There is no sign of rain.

## NOTABLE SERVICE

IN THE ENGLISH CHURCH

In Quebec City. Sermon preached by the Archbishop of Canterbury.

Bulletin Special Dispatch. Quebec, August 28.—For the first time in the history of the new world the Archbishop of Canterbury was heard today in the historic city of Quebec. The event was a notable one in the history not only of the Dominion but of the Empire. It was also notable that the Primate's visit was the date of the one hundredth anniversary of the cathedral of the Holy Trinity of Quebec and of the centennial of the consecration of the first English Protestant cathedral in Canada.

## TRAIN TELEPHONES

WILL BE ADOPTED BY C.P.R.

Telegraph Wire will be used. Will ensure greater safety to trains.

Bulletin Special Dispatch. Brockville, August 29.—The Canadian Pacific has been experimenting for some time past with a train telephone which is now perfected. They have decided to adopt it generally.

Each baggage car and caboose will be equipped with a telephone and the long wire and pole with hook which is simply hooked onto a telegraph wire at any point and the despatcher's office can be communicated with instantly without interference with telegraphing. The advantage will be that in case of trouble trainmen can communicate with the despatcher and he can protect the train and send assistance.

## C.P.R. NEW STOCK

FOR SHAREHOLDERS ONLY

Thirty-Four Millions to be Used in Extending its System in the Dominion.

Bulletin Special Dispatch. Montreal, August 27.—An important issue of new stock is announced by the Canadian Pacific Railway. It will consist of \$20,000,000 of new stock, being a total capital stock of \$104,500,000. In addition to this \$20,000,000, they will have \$14,000,000 in reserve. The new stock will be allotted to present shareholders at par. The present stock is quoted at 127 3/4. The whole issue will be absorbed by the present shareholders. The whole of this \$34,000,000 will be used for extensions.

## HARVESTERS FOR THE WEST

One of the heaviest excursions of harvesters in the history of the C. P. R. pulled out of Toronto via North Bay for Winnipeg on Saturday, Aug. 23rd. Six heavy trains made up the list. The total number of farm laborers carried was 2,433, distributed as follows: First train 451; second, 470; third, 305; fourth, 405; fifth, 215; sixth, 507.

At North Bay the six trains were made up into four. The last of these was the longest and the largest ever hauled over the C.P. R. This train had 19 coaches, three cars of baggage and one caboose, containing nearly 900 passengers and pulled by engine No. 1242. About 400 of the total number were women who will work at farm domestic work on the prairie, as in former years.

This excursion was supplied from western Ontario.

### Canada as a Wheat Producer

Minneapolis, August 26.—What that on the average will run better than 20 bushels to the acre is pulling ahead rapidly all over the Canadian North-West, and if frost holds off reasonably well, the country north of the line should turn out 70,000,000 bushels this season, said Mr. T. M. Knappen, who recently visited Calgary, Edmonton and the whole Canadian West. In all about 2,500,000 acres stand in wheat. Some of the fields will show the phenomenal yields often obtained from new land.

A few in older settler territory may fall slightly under normal. The average for the whole may run over 20 bushels, but will not fall below. Frost is the only thing that can hurt the crop now. This is the size-up of the situation by T. M. Knappen, secretary of the Western Canada Immigration association, who has just completed a three weeks' tour of the Western Canadian wheat fields.

Manitoba has considerable wheat that is a week or ten days late, but it is working along rapidly towards maturity, and is making up for time lost earlier in the season. The province grows well, and there is no black rust.

"I never saw finer wheat in my life than I saw on this trip," said Mr. Knappen. "There is no black rust, and the slight brown rust that has appeared in a few localities will not affect the yield. The only thing in the way is the possibility of frost. The crop in Manitoba is late and an early frost would catch some of it. As yet there have been no frosts in western Canada. If western Canada has a 70,000,000 bushel crop this year, with a poor crop in the States, you can see that that country will occupy an important place in the grain world."

## Formal Introduction Of The Famous

# FIT-REFORM CLOTHES

At last Edmonton is to have "FIT-REFORM" CLOTHES. So great has grown the demand for them that we have decided to put in a complete stock of these famous Suits and Overcoats.

To the men who know "FIT-REFORM" Clothes, it is unnecessary to speak. It is to the men who are unacquainted with this new era tailoring, that "FIT-REFORM" will be a revelation.

It gives them the richest, handsomest fabrics imported from England, Scotland and Ireland. It gives a selection of hundreds of the season's newest, choicest fabrics and colors. It gives men an absolutely perfect fit, for there are sizes from the small, thin man and stout small man, to the tall, thin man and extra stout large man—with every variation between. It gives men clothes designed by the finest tailors in Canada, and finished in absolutely faultless style. It gives men Suits and Trousers and Overcoats, that cannot be surpassed by any tailor in the Dominion—at just HALF what the merchant tailors charge.

## We want you to Come.

We want you to see just what "FIT-REFORM" Clothes are—tell you how and why they are better than you thought clothes could be.

J. H. Morris & Co.

Edmonton, N.W.T.

## BY-LAW NO. 278

A By-Law to provide for the raising of \$8,000 to meet the portion of the costs to be borne by the Municipality at large of an easterly extension of Jasper Avenue.

WHEREAS the Municipal Council of the Town of Edmonton, deem it expedient to extend Jasper Avenue easterly from a point commencing at Lot Thirty Eight (38) in Block Two (2) in River Lot Twelve (12) of the Edmonton Settlement and running to Lot S. 8 (8) in Block Four (4) in River Lot Fourteen (14) of the said Settlement.

AND WHEREAS the Municipal Council deem it expedient that the said work should be undertaken as a Local Improvement and that the costs thereof beyond the sum of \$8,000.00 should be raised by Special Frontage Assessment and that the cost thereof to the extent of the said sum of \$8,000.00, should be borne by the Municipality at large.

AND WHEREAS if the said work is to be undertaken by the Municipal Council as aforesaid it is necessary that authority be obtained to raise the said sum of \$8,000 by the issue of debentures for a sum not exceeding that amount.

AND WHEREAS it is expedient that the amount to be borrowed for the purpose aforesaid if such authority be accorded, should be payable during the period of twenty years from the date of the debentures to be issued therefor, and should bear interest at a rate not exceeding five per cent. per annum and either (1) that the same should be repayable during the period of twenty years; or (2) that the principal shall be repayable at the end of twenty years from the said date (provision being made for the payment thereof by the creation of an equal annual sinking fund) and the interest annually.

AND WHEREAS the amount of the whole rateable property in the Municipality according to the last revised assessment roll, is \$3,563,748.

AND WHEREAS the total amount of the general debt of the Municipality exclusive of local improvement debt, incurred by special assessment, and outside the debt due for the current expenses of the year is \$398,237.39.

AND WHEREAS it is expedient that this by-law should take effect on the 15th day of September next.

NOW THEREFORE the Municipal Council of the Town of Edmonton, duly assembled enact as follows:—

1. The Mayor and Secretary Treasurer of the Town of Edmonton are hereby authorized and empowered to borrow for the purpose aforesaid, on behalf of the Municipality a sum or sums not exceeding in the aggregate the sum of \$8,000 and to issue one or more debentures of the Municipality for such sum or sums as may be required.

2. The said indebtedness shall be paid during a period of twenty years from the date of issue of such debenture or debentures, and shall bear interest at a rate not exceeding five per cent. per annum, and shall be payable, either (1) in such manner that each instalment of principal and interest shall be equal in each year of the said period of twenty years; or (2) in such manner that the principal shall be paid at the end of the said period of twenty years (an equal annual sum by way of sinking fund being raised annually during the said period sufficient to meet the principal at maturity) and the interest thereon, yearly.

3. During the currency of the said indebtedness there shall be raised annually by special general rate on all rateable property in the Municipality at the same time and in the same manner as the ordinary general municipal tax and a sufficient sum to meet the amount of the annual instalment of principal and interest or the amount of the equal annual sinking fund and the annual interest, as the case may be, payable in each year in respect of the said indebtedness.

4. This by-law shall take effect on the 15th day of September next.

5. The votes of the electors for and against this by-law shall be taken at the Council Chamber in the City Hall in the Town of Edmonton, on the 12th day of September, 1904, between the hours of 9 a.m. and 5 p.m.

6. George Johnstone Kinnaird is hereby appointed Returning Officer, and Kenneth O'Connell, Deputy Returning Officer to take the votes at the time and place aforesaid.

7. The said Council Chamber at the hour of 5:30 p.m. of the said 12th day of September, 1904, is hereby fixed as the place and time where and when the returning officer shall sum up the number of votes given for or against this by-law.

PASSED provisionally in Council, at Edmonton this 16th day of August, A. D. 1904.

WM. SHORT, Mayor.

GEO. J. KINNAIRD,

Secretary-Treasurer.

PUBLIC NOTICE is hereby given that the foregoing is a true copy of a proposed by-law which will be taken into consideration by the Municipal Council of the Town of Edmonton, after being voted on by the electors; that the date of the first publication of the said proposed by-law is the 19th day of August, 1904, in the "Edmonton Bulletin," a newspaper published in the town of Edmonton; and that the votes of the electors shall be taken upon the said proposed by-law on Monday, the 12th day of September, 1904, between the hours of 9 a.m. and 5 p.m. at the Council Chamber, Edmonton.

GEO. J. KINNAIRD,

Secretary-Treasurer.

## The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 16, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following upon and cultivation of the land in each year during the term of three plans:

(1) At least six months' residence years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of "40 or 100 acres" of such land, containing patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with cultivate 30 acres of his homestead, buildings for their accommodation, and have besides 30 acres sub-stantiated.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

## JAMES A. SMART,

Deputy Minister of the Interior. N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

## LOCAL

—C. O. Swanson, Government Immigration agent, has recently placed a number of American settlers in the vicinity of Wetaskiwin.

—During July 2,749 headstades were taken in Western Canada. Regina had 743, Edmonton 308, Calgary 191, and Yorkton 537.

—The Medical Convention in Vancouver has closed. Dr. Wilson, of Edmonton, was elected Territorial vice-president.

—A couple of trainloads of timber for the Battleford bridge arrived in the city the last couple of days.

—R. T. Williamson returned from Calgary Friday evening from taking two single deck cars of hogs to Calgary.

—On the opening day of the Regina Normal school eighty-two candidates were in attendance. Twenty-one of these are first and sixty-one second. Only eighteen out of the eighty-two are men.

—A rehearsal of the dramatic play, the Confederates Spy, will be held in the Windsor Bank at eight o'clock this evening.

—A despatch from Gateway, Montana states: A number of settlers are passing weekly to Alberta, the land of promise. After this dry year Tobacco Plains will furnish a large contingent of dry ranchers, at least indications point that way at present.

—The death took place in Edmonton yesterday of Mrs. Abbot, wife of J. L. Abbot, formerly a barber in Edmonton, but now of Strathcona.

—Armstrong's survey party, who have been working south of Edmonton heading west, arrived in the city Saturday. They will shortly leave town to resume running the trial line westward which passes about seven miles north of Leduc.

—Calgary Herald: The well known theatrical man, William Cranston, has returned from a trip to Edmonton. He says that Edmonton people do not know what they are going to do for a theatre, and they are talking of building a new one, as the building now used is to be turned into a rink.

—J. K. Curthens, the well known grain expert, has compiled an estimate of the yield of the largest wheat growing countries. The crops secured or being harvested are: United States, 75,000,000 quarters; Russia, 53,000,000; France, 42,000,000; Germany, 72,000,000; Canada, 12,500,000; Great Britain, 5,000,000.

—W. W. Shaw and Mr. Tucker of Lloydminster are in Edmonton getting supplies and provisions and will each take a raft down the river to Fort Pitt.

—The C.M.B.A. school opened today with a much larger attendance than on any previous term. Seating accommodation will have to be provided for upwards of twenty new pupils.

—Rev. A. Forbes of Fort Saskatchewan, will occupy the pulpit of the Edmonton Presbyterian church next Sunday morning and evening. Rev. D. G. McQueen is expected to be in Edmonton to take the services on the following Sunday.

—The High and Public schools of the city opened this morning after summer vacation. Fifteen teachers are on the Public school staff and three on the High school staff. A large number of new pupils are in attendance at the different Public schools this morning.

—The town of Strathcona has erected a splendid fence on the west side of the road leading up the hill across the river opposite the Hutton property. This is the place where so many accidents have occurred and the building of the fence will mean a greater safety to users of the road between the two towns.

—Times: The electric light poles arrived in Wetaskiwin last week and have been placed about the town. The wiring of the town is being pushed forward. The poles are completed for the power house, and the contract for its erection will not be awarded at the next council meeting. Some of the machinery is on the road, and should arrive in a few days. Apparently the plant will be in operation by the time the snow flies.

—Herald: Parties who have been eastward from Ponoka say the crops out that direction are very good this season. The land there has been under cultivation longer and naturally the crops are much better, both in respect to yield and quality of grain than places where the ground is only cropped for the first time.

—Ponoka Herald: Friday's train brought in a number of land seekers from Nebraska and Dakota. The crops in those states in many places were damaged by the black rust, so that the yield will not be as large as expected a few weeks ago, while the quality will be below the average. They report that a number of the people from the States contemplate coming to Alberta.

—Advertiser: A very important meeting was held in Peardon's hall, Lacombe, Wednesday: a convention of all councillors in local improvement districts, between Olds and Wetaskiwin. The meeting was called with three important objects in view: For the purpose of formulating suggestions for improvements in the road ordinance, the organization of Territorial association of councillors, and the formation of a Territorial Good Roads association.

—McLeod Advance: There was a heavy rainfall here last Friday night which will have the effect of bringing on late grain and root crops. After the storm, for the first time for several weeks the mountains showed up clear and distinct, appearing to be covered with snow of silvery whiteness from base to summit. During Saturday a heavy wind sprang up and before many hours the fair scene was again hidden by a pall of smoke which drifted down from the mountains, showing only too plainly that the forest fires, which it was hoped had been extinguished, had burst out afresh.

—Shelby Independent: A couple of prosperous looking immigrants from the Indian territory passed through town in their wagon Monday, bound for Canada. These men have been on the road since April 5th, during which time they have travelled about 2,200 miles overland. They report that in Texas and Mexico cattle are starving to death. The country has had no rain since last September, and the range is entirely bare.

—In the Saskatchewan Herald of August 25th, appears the following item clipped from its files of twenty-five years ago. "The practicability of raising fall wheat is about to be tested at Edmonton by Mr. Thomas Smith who is taking up some seed of a choice variety. From the way that self-sown wheat and other grains flourish there does not seem to be good reason why it should not succeed. Mr. Smith has also some new spring wheat for a change of seed."

—Ponoka Herald: Cook Myer returned Monday from his ranch at Buffalo lake, where he has been assisting the boys in putting up hay for the past three weeks. They are putting up some 200 tons of hay this season. Cook has been in the country a good long time, and says he never saw the country in a more prosperous condition than at present. The crops are in most cases good, and with a continuation of the present weather for a couple of weeks more, the grain will all be in the stack. The hay crop is the largest it has been for five years, and there is an immense amount of it being put up, and owing to the dry weather it will all be stacked in splendid shape.

—Leader: Latest reports from the Doukhobor settlement, near Yorkton, consisting of some six thousand people, tell of satisfactory advancement and success. They have this year about twenty thousand acres under crop and in excellent condition. Several industries have been started among themselves, such as saw and grist mills, brick yards, etc. Over one thousand men from the colony and many teams are working during the summer on the railroad. Notwithstanding his peculiarities, industry and a high moral standard of living will eventually make the Doukhobor our very best type of settler among all those of European origin.

—Lethbridge News: Mr. G. J. C. White last week took off the second cutting from a field of alfalfa on his irrigated farm Edgehill. Before the season closes a third crop will probably be taken off. He also took a fair crop off a field seeded only last spring. Three crops in one season when wild hay is a comparative failure in southern Alberta, is a pretty good demonstration of the value of irrigation. Last Friday Fairfield Bros. commenced cutting their alfalfa for the second time. The first cutting was made six weeks ago, and while not as heavy as they expected to raise, this will yield three-fourths of a ton to an acre. With an average fall it should make another cutting of an equal amount, giving a total yield of more than two tons per acre.

—Red Deer Advocate: On Thursday last the Scandinavian people of the district had a very interesting service in the Presbyterian church. The occasion being a visit from the Rev. P. W. Wadsworth, Ph. D. D. D., a member of the Swedish parliament for the last twenty-three years, and at the same time a professor of ancient languages in one of their theological colleges. This distinguished gentleman's object in visiting this country is to look into their national, educational, and religious conditions, and gather material for a book he intends writing on the subject. He has been especially instructed by the King of Sweden to examine the school systems of the United States and Canada. He is highly pleased with the Canadian school system and with the conditions generally of the Scandinavian people in our country.
